TECHNOLOGY BEYOND the POINT of NUTRITION™

Active AgriScience Inc. supports the farming community by providing innovative, effective and economical products. A leader in plant nutrient and bioactive compound research and technology, Active AgriScience uses rigorous scientific methods to develop full cycle fertilizer and nitrogen management solutions to help enhance crop potential while being mindful of environmental impacts.

3422 Millar Avenue
Saskatoon, SK, S7K 5Y7, Canada
tel.: 639.398.0485

Stack no more than 2 pallets.
Not more than 4x500L IBC totes.
Not more than 2x1000L IBC totes.

Storage & Handling PRODUCTS

This guide outlines the recommended storage and handling conditions for Active AgriScience's primers, foliars, micronutrients, and nitrogen stabilizers. Proper temperature control, ventilation, and stacking help maintain product quality and performance. Store products in their original, sealed containers, away from extreme temperatures, direct sunlight, and contamination.

PRODUCT	STORAGE CONDITIONS				HANDLING CONDITIONS
	Ideal Temperature	Lower Limit	Upper Limit	Ventilation	Stacking
Active PRIME / Precision Starter	0-25°C	-5°C	35°C	Well ventilated area	Not more than two skids/pallets Not more than 2x1000L IBC totes Not more than 4x500L IBC totes
