TECHNOLOGY BEYOND the POINT of NUTRITION™

Active AgriScience Inc. supports the farming community by providing innovative, effective and economical products. A leader in plant nutrient and bioactive compound research and technology, Active AgriScience uses rigorous scientific methods to develop full cycle fertilizer and nitrogen management solutions to help enhance crop potential while being mindful of environmental impacts.

MIXING INSTRUCTIONS

Add tank mix partners in the following order: Water, Agrochemical, Active GFB. Keep agitator running while mixing and spraying. Mix 1L/acre of Active GFB with a minimum of 20L/acre of water for ground applications and 12L/acre for aerial applications.

APPLICATION

Apply at fungicide timing as a foliar spray. Spray early morning or late afternoon when the sun is lower in the sky. Do not apply when air temperatures are above 29°C (84°F). Avoid spraying on windy days. Do not apply within 21 days to harvest.

COMPATIBILITY

This product is compatible with most fertilizers, and pesticides. Scan QR code for more information.

AVAILABLE SIZES

10L, 500L, 1000L

*3rd party yield research with Ag-Quest and the University of British Columbia.

ACTIVE AGRISCIENCE DISCLAIMER: Presented Data and product attributes will not guarantee the future efficacy and product attributes as these vary greatly related to weather conditions soil types and genetics of crops. It is understood and agreed that Active AgriScience Inc. ("Active") does not guarantee that use of its Products will yield any specific result. Active's legal liability, and that of its employees or agents, arising from use of its products shall be limited to the cost paid for the product regardless of whether any loss arose from Actives own negligence, breach of contract, or any other cause. Under no circumstance shall Active be liable, beyond the cost paid for the product, for direct consequential, incidental, or special damages, including, but not limited to, damage or destruction of a crop, or contamination of any property.
